A Mentorship Program for TIRRC

Case Study

Client

The Tennessee Immigrant & Refugee Rights Coalition (TIRRC) is a statewide, immigrant and refugee-led collaboration whose mission is to empower immigrants and refugees throughout Tennessee to develop a unified voice, defend their rights, and create an atmosphere in which they are recognized as positive contributors to the state.

Problem

Currently, there is a large number of immigrants (3,000+) in the Nashville metro area who are eligible and ready to complete the naturalization process but, for various reasons, have not done so. TIRRC's preliminary research showed the process was too intimidating. Owners need an online solution to help people navigate the naturalization process.

Challenge Statement

How might we provide a platform to connect Nashville residents ready for citizenship with naturalized citizens in order to help immigrants overcome barriers and become Americans?

Solution

User research showed naturalized citizens valued trusted information and real, in-person guidance. A mobile app would connect people who are ready for citizenship with those who have already been through it. This could help TIRRC grow current client trust and engage a new audience/donor base of established professionals within the immigrant community.

Process

- User interviews, contextual inquiry
- Journey mapping and personas
- Preliminary wireframes and user testing
- User flow and functional decomposition chart
- Admin functionality empathy map
- High fidelity mockups and Figma prototyping

Personas & User Stories

Miguel Reyes

IT Support, Philips

ABOUT

 32  Spanish/English
Born in: **Guadalajara**  45k  MTSU
Current Residence: **Antioch**

ABOUT

Miguel arrived in Nashville 11 years ago from Mexico City. He came to the US with his family seeking better paying jobs and a college education. He graduated from MTSU with a Bachelor's in Computer Science and has been working in IT for the past 7 years. Miguel was inspired to apply for citizenship when his friend first voted in the 2016 election. To some it may seem like a small gesture, but having that citizenship status will make Miguel feel more like he belongs in the place that is already his home.

Needs

- Needs to feel confident he has submitted the correct info.
- Prefers to receive guidance in person, followed by SMS.
- Wishes he had a roadmap to the path of citizenship and a status he could check to see where he is on that path.

Pain Points

- Difficult to find pertinent information online.
- Dislikes dealing with automated phone-trees.
- Considers the application process expensive.

“ I know it would benefit me but I'm just not sure where to even begin, I wish I had someone who could walk me through it. ”

Integrate with Ease

Maybe it's an app, maybe it's just an extension of your website. This design ensures you have a simple integration into your products, brand, and systems. It's a dedicated sub-brand that lives on its own.

Stay in Touch

It doesn't have to be goodbye. We are available to build out this design after Feb. 14, 2020.
